

## Energy Frayer Model

**forms of energy...**

**ways energy can be used...**

**examples of energy  
transformations (changes from one  
form to another)...**

**our wonderings about energy...**

The diagram is a Frayer Model for the concept of Energy. It features a central oval containing the word "Energy". Four lines extend from the oval to four different text prompts: "forms of energy..." (top-left), "ways energy can be used..." (top-right), "examples of energy transformations (changes from one form to another)..." (bottom-left), and "our wonderings about energy..." (bottom-right).
